

**LET'S
ROCK
TOGETHER.**

CATALOG 2022

ALL FOR FLOWERS & PLANTS

KOEN PACK ROCKS!

WE AT KOEN PACK PROUDLY PRESENT OUR NEW 2022 CATALOG.

In cooperation with stylists and trend watchers in the fashion and interior industries, we have designed the new looks and shapes as shown in this catalog. These new looks connect seamlessly to the consumer wants and needs.

We currently live in a volatile time, which has an impact on our personal and professional lives. But we do see light at the end of the so-called tunnel. Together we can take advantage of the opportunities ahead of us.

We have a 25 year track record of offering new, fashionable and user-friendly solutions for all your packaging needs. And as always these new products are available from stock.

With the new collection we show that Koen Pack rocks! Rocks display power and stability, but also rock and roll! We are on the move to better things. Rocks are the “golden thread” in our 2022 collection.

At the same time we are offering our custom design services and sustainable options. We are here to help design, advise and just be your partner for your packaging needs. Feel free to drop in or make an appointment to visit our showroom, talk to one of our account managers or invite us to your place if that works better for you. We would love to have you experience “The Personal Touch.”

You Rock, Koen Pack Rocks...
Let's rock together!

ABOUT KOEN PACK...

KOEN PACK HAS OFFICES IN THE NETHERLANDS, THE UNITED STATES, CANADA, COLOMBIA AND ECUADOR. THANKS TO THE CLOSE COOPERATION BETWEEN OUR BRANCHES, WE ARE ABLE TO DISCOVER TRENDS AT LIGHTNING SPEED.

This means we can stay one step ahead and make our customers' flowers and plants even more beautiful. With our production facilities in Europe and the Far East, we respond quickly to demands of the market at an excellent price-quality ratio.

In our web shop and app you will find the complete and always actual product range. We make it easy for you to order online, quickly and efficiently. All information about products and stocks in

is bundled here. And you can order immediately.

SUSTAINABILITY AND THE ENVIRONMENT

At Koen Pack, we feel it is very important to focus on our impact on the environment, and informing our customers about the origins of our materials and the processing of waste. On our website and in our sample book we have summarized choices in raw materials, product features, recycling and the like. With this information our customers can make informed decisions about sustainable packaging.

FSC® CERTIFICATION

The Forest Stewardship Council (FSC) helps ensure that our forests are preserved through responsible forest management. By using FSC, you contribute directly to the protection of our global forests and a healthy living environment for humans and animals worldwide. To ensure responsibly managed forests, all links in the trade

chain must be certified. In fact, to be FSC certified everything from the forest manager to the paper mill needs to demonstrate FSC compliance. Koen Pack is proud to be registered with the FSC certificate C148914 and continue to enjoy protecting our forests even as paper products are produced.

DIFFERENCES

WHAT IS THE DIFFERENCE BETWEEN BIO-BASED, BIODEGRADABLE AND COMPOSTABLE?

Bio-based refers to renewal, natural resources used to create some of our products. These resources are typically corn, sugar cane, and potato starch. It's important to remember that not all bio-based resources are biodegradable. Biodegradable materials breakdown under normal circumstances: you should

be able to throw it in your compost heap or the garbage and it will break down naturally. Biodegradable materials can take various amounts of time to degrade: wood and cotton, for example, can take years to break down. Compostable materials break down into usable soil (compost).

RECYCLING

Though we have the opportunity to create products with the biodegradable plastics available in the market, we prefer focusing on recycling. In fact, most of our

products are 100% recyclable and often contain recycled materials. Many of our customers request that we display the recycling logo on our packaging products.

OUR SAMPLE BOOK

When it comes to flower and plant packaging, Koen Pack has set the goal of informing customers about the various opportunities to focus on sustainability. We know there are many questions in the field of alternative materials, which is why we have summarized the many options in our Sample Book.

SLEEVES MADE FROM 100% BAMBOO

We are constantly looking for new and sustainable materials for our packaging. In addition to our current paper packaging assortment, a new variety in this field is available. These paper sleeves are made of 100% bamboo. The thickness is 60 grammes, so they are nice and sturdy and completely biodegradable or recyclable.

Ask your account manager about it, and take a step forward towards a better and more sustainable future.

For more product information go to page 18 and 32.
