

REFLECTING CHRISTMAS

COLLECTION 2026

SUSTAINABILITY AND THE ENVIRONMENT

We would like to join you in understanding sustainability and inform you the best we can. Not only do we want to address the origins of the materials but also the waste processing afterwards. Our sample book and website offer assistance in making the right decisions when it comes to materials, properties and recycling. We want to keep you completely informed about the sustainable options available. Because there is nothing quite like personal connections, our account managers would be more than happy to talk about sustainability and the options available to you.

FSC® Certification (FSC® C148914)

The Forest Stewardship Council® safeguards forests globally through sustainable forestry practices. By choosing FSC® certified materials, you help protect our world's forests and ensure a healthier habitat for people and wildlife everywhere. To maintain the integrity of the certification and to guarantee that products are sourced from responsibly managed forests, certification is required at every step of the supply chain.

A product can only be marketed as FSC certified if every link in the chain - from the forest manager to the paper mill, and the wholesaler- proves adherence to FSC standards. Our aim is to achieve certification for as many of our products as possible. Our FSC License code is FSC-C148914.

The **FSC PRODUCTS** in this catalog can be recognized by this logo.
